Assistant or Associate Professor

General Internal Medicine

The Department of Medicine, Division of General Internal Medicine at UConn Health invites applications from board-certified or board-eligible Orthopaedic surgeons who are passionate about delivering high-quality primary care and contributing to academic medicine. Appointment will be made at the Assistant or Associate Professor level, commensurate with experience.

This is an excellent opportunity to join a collaborative, patient-centered division within a nationally recognized academic health system. The successful candidate will focus on providing comprehensive primary care while having the opportunity to engage in medical student and resident education, with flexibility to shape an academic role aligned with individual interests.

About the Practice

Our General Internal Medicine physicians provide a full spectrum of primary care services with an emphasis on **prevention, wellness, screening, and chronic disease management**. Care is delivered in a supportive, team-based environment across multiple convenient outpatient locations, including:

- Farmington
- West Hartford
- East Hartford
- Southington
- Torrington
- Simsbury
- Avon

As part of **UConn Health**, physicians benefit from close collaboration with more than **450 physicians across 50+ specialties**, enabling seamless consultation and referral. Faculty have admitting privileges at **John Dempsey Hospital**, an integral component of our academic medical center.

Why Join UConn Health?

- Supportive academic environment with opportunities for teaching and professional growth
- Collaborative, collegial culture focused on high-quality patient care

- Access to a broad network of specialty colleagues
- Multiple practice locations offering flexibility and work-life balance
- Affiliation with a leading public academic health system
